10. Are there any feature suggestions that you have for an university wide application?

    Anzahl Teilnehmer: 2

    - -Option to look up Lecturers and their information (i.e. email, room, fax, phone)
      -More detailed and updated map of campus (+GPS?)
      -Open source or feature submissions
    - - I read the description only one time when I select my courses (and the description is a long text for modules I took, so not useful for a mobile device).
      - Export to PDF or Excel. For the pdf, I don't understand in which usecase it could be useful, For the Excel export, could be useful but for a limited range of usecases.

11. Would you prefer a calendar instead of a classic time table? *

    Anzahl Teilnehmer: 27

    21 (77.8%): Yes

    4 (14.8%): No

    2 (7.4%): I don't care

I don't care: 7.41%
No: 14.81%
Yes: 77.78%
